At the bottom of your iPhone or iPad screen are a series of icons that appear on every screen you switch to. This is the dock and can be used to hold your most used applications so that they are easily accessible from every screen. a limitation, though, as to how many icons you can dock at the bottom of the screen without using special apps. For you can dock 6 icons, while for the iPhone and iTouch you can dock 4 icons. This guide will explain how to remove a icons to the dock so that they are accessible from every screen you are viewing.

Method 1: How to add an app to your dock through the iPad or iPhone

In order to **move** icons to your dock you need to press and hold an icon until all of the icons start to shake. Once yc this mode, you can simply drag the icon to the dock at the bottom of the screen and let go.

Add an app to the dock on the iPad

Then press the **Home** button to stop your icons from shaking.

To remove an icon from the dock works the same way. Simply press and hold the icon and drag it out of the dock beyond your screen.

Method 1: How to add an app to your dock through iTunes

You can also add icons to your dock through iTunes. Simply start iTunes and under the **Devices** category, click on your device name. You should now be at your summary screen. Now click on the **Apps** tab so that you see your list of apps shown in the image below.

Adding an app to the dock through iTunes

To add an icon to the dock, click on the screen where the icon you want is located and then drag it to the position or dock that you want it. To remove an icon from the dock just drag it off the dock to somewhere else on the screen. When done making changes, click on the **Apply** button. The next time you sync your iPad, iPod touch, or iPhone the changes will appear on your device.

How to uninstall or delete an app from an iPad or iPhone

To remove an app directly from your iPad, iPod touch, or iPhone, press the icon on the device for the part app you wish to delete until all of the icons on the screen start to wiggle. Once they are wiggling you will see the symbol appear in the upper left-hand corner of each icon as shown in the image below.
