

How to Email Pictures on Your iPad with the Camera App

Thinking of sharing a picture on your iPad with your friends and family? You can do it with the Camera app. Just read this article to find out how.

Steps

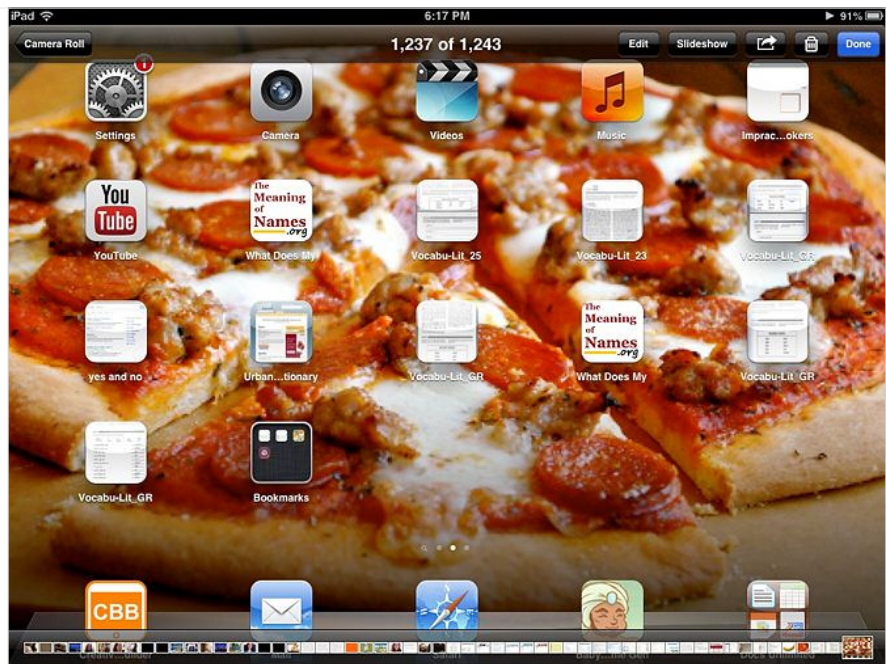

- 1** Find and click on the Camera app on your iPad's home screen. After you click on the icon, a screen will appear.

Fast installation. True redundancy. No loop charges. No taxes.

- 2** Click on the sidebar with the most recent picture you took.

3 Drag with your fingers until you've found the picture you'd like to email.

4 Click on the share button (next to the button that looks like a trash can). Once you've clicked on the share button, click on "Mail."

5 After you click on "Mail", a message box will appear. Add a subject and write a description of the image or just send the picture by itself. It's your choice.
