Tennis every morning @ 7:00 AM  
Dance every Wednesday night in main hall, Sweetwater Band 7:00 PM  
Hot Dogs available at 6:00 PM

#### Pam's Notes

Good Evening,

Hoping you had a good view of the eclipse. Personally, I finally obtained a pair of glasses and was all ready for the big event. Even though I'm located on the Eastern side of IL, we were suppose to have a decent view of the total eclipse with a semi black out. Well let me tell you, I was out on the prairie waiting for the site when the rumble of thunder started and huge big clouds came blowing over. The clouds blocked out the total eclipse. When it turned darker, I don't know if it was from the covering of the sun or if it were the rain clouds. Anyway, I have a pair of glasses that I would sell for a deal.

Steve Eikenhorst did get a view:  
Just got back from watching total eclipse. Had to drive 20 minutes to be in totality. Once in a lifetime experience although I hope to see the one in Texas in 2024. Hope all the tip people along the path got to see it!

I had a nice chat with Faye Pensil. Wally recovered from his foot surgery last spring, but now has some back problems. Faye had some heart problems but is now battling shingles. For all of you who have had shingles, we know the pain she is going through. So, please keep them in your prayers.

We want to wish past resident Beverly Elliott a Happy Belated Birthday. Hoping you had a great day!!!

Have good week....Pam
