Pam's Notes

I was so excited when I asked Alexa what the weather was going to be today and she answered, "could reach 100\*." Then I realized it was still thinking she (it)was in South Texas and I was in Central Wisconsin and it was raining. So, good afternoon and hoping the sun is shining in your area.

I received a note from Rebecca Porter that I would like to share:

Porters have had a busy schedule with travels and family activities. We just visited Nashville for the arrival of our fifth great grandchild. My (Rebecca) Family Reunion is the end of June. Our granddaughter was recruited to play professional soccer in Australia and we plan a July trip to see her. August 4 is the wedding of a grandson in the Chicago area and they have asked "Poppy" to officiate. We hope to be back to the Tip early August. We're ready to be settled and back home.

It sounds like they have a fun filled summer planned. Safe travels to them.

Have a good week and remember to share your summer plans with us. Pam
