Pam's Notes

What a wonderful time we had at Maggie Mae's Barn Dance in Oxford, WI over the weekend. Sending a collage of those in attendance from the Tip. (See Collage at the end of these notes.)

Not only was the barn dance fun and exciting, but the food was great and the hospitality was exceptional. Sunday's show was spectacular, but Roger and Maggie Mae's warm reception to the group was over an above anything that was expected. They feed the group brats and hamburgers Saturday night and even took us on a wagon ride to their campground. We were welcomed Sunday to reserve seating and introduced several times as their Texas family. Thank you Maggie and Roger.

I had a nice note from the Martels:

just received the notes from the MMM...thanks for doing that..hope everyone is well and busy for the summer..I noticed that nothing was said about the Toronto Raptors winning the NBA title...just thought I would remind everyone...we just had the parade and a good time was had by all, well attended...lots of people, lots of people...lol..I will remind you all when we get back at the TIP..things are good in our smaller home and I am enjoying less work to do...enjoy the wonderful sunshine...Mike

Sorry Mike, no mentioning of the Raptors...But while we're on professional teams....hats off to the St. Louis Blues for winning the Stanley Cup....(didn't want to have Bob Fassen pouting when they weren't in the news)

I have to pass on Matt K's amusing note:

We enjoy the info you send.Ask alexa if any of the conversations with her are available to the government. Google's rely was"I cannot answer that at this time".Artificial inteligents is working as I write this.So I will say goodbye to you and all the computers recording this "electronic mail.
