Pam's Notes

Good Evening....You know I told you about Donna Scheibel late last week. I want to share a picture her daughter posted on Facebook Saturday stating that she had made her mother a peach pie and Donna had eaten all of her piece. Donna looks so good and peaceful. It made the sad news that she is on Hospice easier to accept.

Please keep Donna, Henry, and their family in your prayers. Henry's address is listed below in the minutes.

My Texas neighbor, Lois Doubet has contacted Faye Pensel and reported that she is doing well and plans to return to the Tip sometime in October.

Lois also spoke to Eilene Wilhem. Marty Wilhem is having problems walking. And reporting on past Desert residents, Addie Frye was in rehab, but she is now doing well.

John DeVaney sent along this note:

I received a call from Joe & Pat Horak. Joe asked me to pass along their message. Both are having health problems. Currently Joe is in rehab. Hopes to be released soon.

They may not be able to come to the TIP this season. Only time will tell if they are able to travel. Pat said Joe isn't supposed to fly & a long trip would difficult for both.

Elaine & I are doing fine. Thanks for sending the MMM out.

Stay well

I have had several ask if the park was sold to the Good Sam's Corporation. This is MY thinking. The Wilder Parks, along with several other parks in the Valley are now in partnership with the Good Sam's RV Parks. Traveling campers will get a discount if they stay in our park. Hopefully this will entice new campers to stop by and try out the Tip. If you check out the Good Sam's web site, you will see the Tip has a very good write up.

Please pray for Donna and have a safe, fulfilling week. Pam
