> Subject: Monday Morning Meeting

>

> Well once again we are in Lockdown mode and MMM has been shut down. All activities except out door and swimming pool have once again been suspended. As a result of this there is no MMM. Everything in the park seems to be the same as before, but the county judge sent out notices that everyone has to wear a mask in any building. Most of us have been doing so anyway. I am happy to see most people in the valley respect that and when I have gone to the grocery store, I have not seen anyone not wearing a mask. I don't remember if I sent this note from Taima Bergman to you before, but I am sending it again just in case I did not. I would be happy to hear from others in the north country so I can continue to send out news from the tip. It also gives me something to do, as I am tired of this sitting around. Thanks and have a good week. Dave

➤ Greetings from the flood devastated Midland, Michigan where life is trying to get slowly back to "NORMAL" - whatever that is? 1/3 of Midlanders have their flood and sewage damaged furniture, appliances and belongings out on the curb, waiting to be picked up and disposed! I was very lucky this time, my basement remained dry! After having been evacuated for 3 days, I returned home as soon as electricity was resumed, and took in a little "refugee" from the floods - I now have a cute Siamese cat living here TEMPORARILY- (I AM NOT A "CAT PERSON"). The cat belongs to a friend who lost her home in the flood and is very traumatized, still miauing pitifully and looking for her companion cat who lost his life going into the basement and drowned!

➤

➤ Steve and Janet Pavlik, with their dog, Scout, from Sterling, MI, visited me last Sunday. They rented at the end of Independence, same side as me. And Jerry and Sharon Bryan, from Taylor, MI (Detroit area) keep calling and plan to come and visit as soon as restrictions are removed. Midland is not a good place to be at the moment, we have quite a few new cases of CORONA victims at our local hospital. Both couples are hoping to return to Tip next season and would like to have their name on the list for Monday Morning News on the computer.

➤

> I hope you will add their e-mail addresses to the existing list, Dave! Sounds like you are having lots of fun at Tip-O-Texas! Keep it up, as long as it lasts! Best wishes to all! Taima Bergman

Pam's Notes

Pam Brown

Tue, Jun 23, 5:20 PM (15 hours ago)

[With the virus back in full force after the opening of the beaches and bars, McAllen has shut down again and so has the Tip. As you read, all activities, except outdoor activities, have ceased.](#)

[I left the Tip last Tuesday for MD Anderson in Houston. After being testing for the virus, I met with a surgeon. She, too, was perplexed by the original diagnosis of breast cancer. She suggest I go north and let my ear heal after the radiation treatments and she would go over the slides and scans. I need to report back in Houston on July 25. We will find out more then. I feel like this is good news. I'm still having trouble eating, but that is getting somewhat better. I again want to thank everyone for their prayers and cares.](#)

[I heard from Marty Gawf. She and husband, Bob spent many years here at the Tip:](#)

Sorry you got held up on your treatments. We all hate taking time for illnesses that we don't want or need. That all goes to show we are just human beings.

Hang in there you will get better and back on the court. Wish we still could hit the ball. Great memories.

We will never forget our days and friends from the Tip.

Our prayers are with you all. Mar

I am sure many of you remember Hope Bradford. The dear wrote:

so glad your being so strong . I know you have bad days but so glad your fighting the cancer. I've had a lot of cancer surgically removed but nothing like you had to go through. We have 910 homes in here and no viruses here. Thanks for keeping the news letter going (even while you were so sick). We got word last nite that my niece's son Michael (stationed at Patrick Airforce Base)was shot while in a training session. They were using rubber bullets, and there was one loaded with real bullets and it went through his arm and ended so close to his heart they can't remove it. He's stable and I'm waiting to hear how he's doing. Please put him on your churches prayer list. I miss you all and if all goes well I may see y'all next season. I'm thinking of South Padre. Love Hope

So from Central Illinois, where it's high of 80\* a say, Stay Safe. Wear your mask.....and we will see you back at the Tip soon. Pam
