Couple notes, again don't forget to tend to forwarding your mail and notifying the office to be sure you get a block in your box, also be sure to notify the office if you are leaving even if its a short week or two weeks, just keeping office in the loop if we have any emergencies who's here and not or expected when to return.

We are working on some of the lists for summer projects and if we get approval will keep you informed as to the time table they will be addressed. Bigger projects are Tennis courts, indoor pool and both spas. some flooring areas to redo as well as some interior painting.

Don't forget keep items picked up, locked up and secured the best you can as we are only a couple months away from hurricane season.

Stay safe, be sure to keep your cars sheds homes locked and if your traveling be safe be aware of your surroundings
