Pam's Notes

Good Tuesday Morning from Central IL. Much needed rain here today. Hoping you're surviving this heat wave in much of the country. If you haven't heard, Don West Flea Market burnt to the ground early last week. As I have heard, the fire started on the outside of the building. Flames ignited a fuel pump that caused the total eruption of the main building. The pictures are quite disturbing.

Update on me....Still feeling good, but dr. found one new small spot on my spine. Waiting to see what the radiologist says this week. Praise the Lord, still only on the outside of vertebrae and not next to the spinal cord. Prayers appreciated.

I did receive a nice note from the O'Briens, but sad to learn they may sell their trailer and not join us back at the Tip.

Awful about the Don Wes fire. I do hope they can replace the things and stores that burned. Let me know if you hear or read anymore about it. It would certainly be missed.

Hope you are having a good summer. We are doing good. Hope to get to the park sometime this summer or fall to clean out the trailer and get it ready to sell. Had a lot of great years there. Will certainly miss anyone there and the fresh grapefruit and orange tree in the back yard.

Hope you are staying healthy. Keep in touch.

Darlene

Also it was soooo good to hear from Jim and Linda York:

Thanks for keeping us in the loop. Mom (Eilleen Baylis) is into her 98th year and doing well in Assisted Living. Loves having her own apartment. My brother Jim(visited the TIP a couple Of times has terminal cancer and we are on our way to Alberta to be with him. Jim and I are doing well. We still have the cottage so have a summer retreat. Glad you are doing so well. You give us hope.

Isn't it wonderful that long time resident Eillene, Linda's mother, is still going strong and living her life to the fullest. This is another Praise God!!

Wishing you a safe, healthy, week. Pam
