~~~~~

### Pam's Notes

Burr from the Midwest We're having a few days of rather chilly weather. We have had snow flurries!!!! Time to migrate. I was in Houston all last week, so both MMMeetings are enclosed. I had regular infusion, but also had a targeted proton radiation on my spine. Thankfully no pain and I can't really see any side effects. Was a little tired after the week, but that could have been results of test, chemo, flu shot, 3rd Covid booster, or the radiation.....who knows? I am fine and just complaining about the chill in the air and I am still in IL. One more trip to Houston and then Pete and I will be down at the Tip for the season. Can't be soon enough for me.

Last Thursday my neighbor, Lois informed that:

Just talked to Pat Collier. She is back at Tip as of yesterday. Her son is with her-she is quite a gal!

Good for Pat!!! Now she's a trooper!

Sorry this is after the fact, but Marge Johnson wrote:

Len is turning 80 on Monday, October 17, so I thought we'd all help him celebrate. I'm having cake and ice cream for him at the Hall at 2:00. He, so far, is unaware of this!

Please pass the word on to everyone! Marge Johnson Happy Belated, Len!!!

Stay warm, drive safely, and let's all meet in South Texas soon. Have a good week.

Pam
