Good Morning to All: I just returned from (Now don't laugh) Illinois Homemakers Camp. Dan just shakes his head when I attend this. Anyway, 160 women get together, stay in log cabins, sleep in bunks, eat meals in a mess hall on benches, and sew or do crafts for 4 days. I bring home wonderful keepsakes that will someday be tossed by our daughter. Trust me...not nearly as much fun as our tennis camp, which is coming up soon.

I've learned through the MMMeeting that Dick Shoemaker fell and broke his hip. For any of those who would like to send him a card his address is 2585 26th Street, Cuyahoga Falls, OH 44223. They do not have an e-mail address. We hope for a complete and speedy recovery.

I heard from John and Nancy Beilke about joining us in Moline: These two Huskers have just returned to solid form after having a melt down from the 104 degree temperature last Wed (19th). Now that we are somewhat functional again, we realize that it would certainly be unneighborly not to join all you Pardners at the Liebowitz shindig

I wanted to pass on this nice note from John & Darlene O'Brien: Got your notes and the MMM today. We do so enjoy all the updates on where and what people are doing.

Speaking of being HOT, I talked to Gert Thorstenson yesterday and it was 118 degrees, yes, you are reading it right. That is not with heat index. She is from McLaughlin, South Dakota. The summer there has been unreal. We have it a little over 100, but nothing like that.

Be nice to get back into the 80's. Our Daughter and her three sons are coming next week from Colorado for 10 days. They are from the Boulder area and it has been really hot there also. It has been over 100 degrees. That is rare for there, especially for such an extended length of time.

I was teasing our son in Florida, that it has been cooler there than anywhere else. I think it has been in the 80's.

Just wanted to let you know of the temperature in the Dakotas. Thank you for the MMM we really appreciate them. I print them off and send them to Gert as she does not have a computer. It is nice to keep up with friends during the summer months and also with what is going on down at the TOT.

Bye for now. Take care, keep cool and keep up the good work. Tell Dan hello for us, and to drive careful.

Darlene/John

So nice to hear from everyone.....if for some reason you sent us something and I don't get the note passed on....forgive us. Sometimes Dan gets to the e-mails before me and pushes the wrong key, just resend and we'll eventually get it right. Everyone have a nice week. Pam
