Dearest Friends: Thank you for all the support you have shown thru your calls, cards, and memorials during this tragic time. Your out-pouring of love and caring has helped to fill the void in my heart. A friend said, "Take this time like you would if you had to eat an elephant. One small bite at a time." And please note, my Illinois friends have already had me back on the court. Again, I say thanks, but please keep me in your prayers and Dan in your hearts. Pam

Here is a note from Midge, taken from her Meeting e-mail:

Hi there well I need to fill you in on the indoor pool. They drained it yesterday and will continue to let it dry out so they can re-paint it. It sure does need it as the last paint job is wearing off fast. I hope Rubin is in good hands and they find out it can be taken care of up there in San Antonio, I had heard it was his liver and thats not good at all..but if he had to take off, now was a great time for them to paint the pool he takes such good care of. I miss his work when he is off as I hafta pass that pool everyday and it gets awfully merky when he is off. haha.Mail, even though there is less than 150 folks in the park the mail still can't get here in the AM. Usually after lunch. You folks with fruit trees in your yards, the fruits are really plentiful and look so great. I went yesterday to look behind your place Darlene, they looks nice. There are still 3 or 4 places for sale and rent if your friends are looking....Nothing has been done to the foundation that was poured for the new building that I can see. Hopefully it will be built in a rush when they do start so we can use it this year..Joella Wyant had eye surgery and I saw her at MMM, she is doing well. so is Ann Baker after caritoid artery surgery..Will luv hearing from any and all, enjoy your summer and hurry back, YOUR MISSED
