Hello to all: I had the opportunity to spend last Friday in Moline with several of my Tip Friends who were meeting for the annual tennis get together. Sadly, it seemed that we missed a welcome party the night before. Everyone looked great...except a few who were slightly green of gill and were moving rather slowly. We had a wonderful day and it was good to get back on the courts. My thanks to the Robinsons and Faasens and everyone for reorganizing and continuing with the outing.

It's that time of the year that everyone is wanting to know when you'll be going to the Tip...that includes me. I'm putting together tennis teams, schedules, evening events, and Fun Days, etc. Please send me any info and request that you may have. I know that you all are still playing tennis, unless there's been some physical reasons that will prohibit your playing. We will need to include new players and may even need some new teams. If you were considered a team captain, please notify your team members and let me know your roster of players. I know this may change, but it will be a start of organizing. Hopefully we can start team rotation the 2nd or 3rd week of November.

This week it seems like Fall is in the air in central Illinois. Cool and damp. Gives you the feeling that it's time to pack. Please let us know what's going on in your lives and if you've changed the oil in the vehicle to head south. Have a good week. Pam

E-mail from Midge....thank you for the info and the picture.

Hi again, since your receiving e mail of the MMM we are still awaiting your appearance back to the Park. Now pack up and get on down here, your missed. I got mail this week from several of you letting me know your enjoying the MMM news and I appreciate that, and I got one note from Barb Sherbernal which said Mom wants you to please let everyone know that YES she is still alive and kicking and enjoying it. Somehow someone somewhere got the message out that she had passed away when all it was, was she was doctoring up in Mi but nothing too serious, thank GOD.

The park is shaping up for your arrivals and on the way down, you folks with campers etc, check out the amenities you get in most of the parks you stop at and see if it compares to ours for the price that it costs. It costs us that stay year round under \$7.00 a night. You know, very few of us stop to realize what all we have here, cause we take it all for granted after being here awhile. You know its an R.V. park and we are all still "CAMPING" even though its like we are at our own little country club. Haha --

I started a computer club here on the park for a couple years and I still want to let folks know what I have learned over the years, so here goes: When you are forwarding cute STUFF, and you want to send it on to your friends, but the headers of addresses go on and on, DON"T send it with all those addresses ahead of the cute stuff.PLEASE Haha....

- 1.Go up to the top of the e mail to the word FORWARD and click on it. **This is a must**...do this first or it doesn't work.
2. Hi lite (hold down left mouse and drag it across and down or up, on all the names etc) all names and info you don't want to include.
- 3.Let up on the mouse before getting to the actual cute stuff you want to forward. Right click and click delete or click on the delete key.
4. Now enter the addresses you wish to send it to and a good way to hide all the addresses except one is to send all BUT ONE by clicking bcc(blind carbon copies) And click SEND. I send it to me first, YAH you can do that, by doing that I can see that I did it right and I can then forward it on to as many as I want from the mail I just sent myself.

I had several call and write this week that they are on their way or heading out real soon. The O'Briens will be here for Halloween, Kathie Hall will be here around the 16 of Sept, Piska's will head this way on the 23rd. I heard that the Moline ll tennis group is meeting, however it will be a smaller group, but HEY its always nice to catch up with old friends no matter how few or how many. Nuf said will let you go on to the MMM news. Midge and Adair

Here is the new building. Going up quite nicely.
