Hello to All:

Central Illinois and Indiana, as well as Wisconsin, has been swamped with heavy thunderstorms over the last week. We always said we were living in God's Country. Well, we've had earthquakes, floods, and fires, all within the last few months. Makes one think that He might be telling us something. Our lives are short and very precious. Make the most of each and every day and live it to the fullest.

I haven't heard from any of you, so not too much to pass on. Please drop us a line on your summer happenings. We always need to hear how our Winter Family is doing, especially now that storms have hit all over the country.

Best of luck to Dick & Marge Shoemaker on their flight up North. Glad to hear that Dick has made enough progress to fly home.

Have a good week. Pam
