Well here I go again. Cool and rainy in Central Illinois. Warm enough for the weeds to grow, though. Been home 2 weeks and have mowed 4 times and it needs it AGAIN!! I received a nice note from the Mustesons. Marliss wrote:

Thanks for MMM really appreciate it. we had a perfect 3 hour flight to Mpls then our grandson whisked us away to Siren, All good.

So glad that they had a safe trip home. I also had a note from Larry Booth. We need to keep him and his condition in our prayers.

Well I got some news today. After almost a year struggling with this brain stimulator I now find out they are going to start over again. On the 29th of May I will have a operation to replace and relocate the probes in my brain. I still believe I can be helped when this is working right. Well I have no choice but to hope this is my last resort. Wish me luck this time I will really need it. Larry

I also heard from Sandy Miller...I'm glad to report that her new dog is doing just fine and has found a loving home. For your info, Sandy adopted a homeless dog at the McAllen shelter just a few days before they left the valley. Duane was quite skeptable of the decision, but seems like all as worked out for the best. Congrats on your new family member.

Hoping all have a good week. I'll try to get next week's out a little earlier. Pam

P.S. Anybody need a Farmville Friend???
