Hello from Myrtle Beach, SC.

Last week I was in Williamsburg, VA and found out I should have paid attention in American History class. I had forgotten so many names and events. Colonial Williamsburg is quite the place and makes one think of the bravery shown by a few that affected many. The weather was great. Maybe it would be overcast, but still in the 70's & 80's. We were fortunate not to have had the heavy rains that plagued the Mid West. Picture is taken on the grounds of the Governor's Palace.

Then on to the Outer Banks. There I visited historical Kitty Hawk and stood by the stone marking the Wright Bros. first motorized flight. The markers behind me are the distances traveled on the first 3 attempts.

 Kitty Hawk.jpg

Now I'm writing this in Myrtle Beach and listening to the waves break shore outside my balcony. Sunrise was absolutely beautiful. It is suppose to be clear and warm, just right for lounging in the sun and playing golf this afternoon. I hate to go back to reality after the weekend.

It was nice to hear from several of you this past week. Terry Ernest wrote that Ed is out of the hospital and even went to the card room to play poker the night of his release. I'm sure the guys were glad to have him back at the table so they could take his money.

The Mitchells wrote:

Thanks as always for keeping us updated on happenings at the Tip and in the lives of the people who spend the winter there! We arrived home gradually after spending one week in the Panama with the Tibbetts, two weeks in the Hill Country of Texas volunteering at a church campground to help get it ready for the summer activities and one week at our church international conference in Independence, Missouri the middle of April. We arrived home on April 18 after a great weather trip home through Sault Ste. Marie. Then we came to our summer tourist camp on May 4 and hopefully are pretty much ready for the summer season. If any of you from the Tip are travelling in Northern Ontario along the North Shore of Lake Huron, you must stop in at Spanish, Ontario (about 2 1/2 hours east of Sault Ste. Marie along TransCanada Highway 17) and say Hello! We are doing well health wise and are hoping for some warmer weather soon. April was lovely but now it has been cooler. Have a good summer, everyone. We hope to be back to the Tip around the first of December.

Regards,

Mary and Don Mitchell

Mitchells' Camp

Spanish, Ontario

Midge always keeps us updated on the Park happenings:

Well I have had calls or e mails from several who have left the park but are lonesome!!! Darlene and John O'Brien have had all the rain they want or need and are watching the squirrels in their back yard robbing the next door neighbors strawberries. I have a mother dove in my hanging baskets that was filled with artificial flowers and she is now taking care of her new baby dove. I love watching her. She is not afraid of me going toward the basket, but don't like it when a stranger nears her. Birds and animals are such fun, and we still have the big white bunny and her brown tiny follower bunny. They were next door today looking into Coopers planters to check out what was in there and went on.

Heard at the dance that Jim Collier was taken out of ICU from the fall and broken neck he had and is now in a room, also heard and don't know if it is fact or not but he is suppose to have had a pacemaker put in as they feel he blacked out was the reason he fell. Betty Burris has had double surgery and needs our prayers as she has chemo or radiation.

Joan Buege wrote she misses poker and us gals. Barbara Hoff also called concerned of my condition, what a precious family we all have here, everyone so concerned. I had atria fibrillation and on medication, which is giving me havoc so they took me off this pm and start a new medication tomorrow.

I have tried and tried to find someone to go to Tunica Mississippi gambling, I got an invitation to fly out of Harlingen for \$199.00 p.p and stay 3 night 4 days in the Harrahs hotel FREE and one buffet, and can't find any one to take me up on it. So guess I will have to settle in to getting my flight to Tucson around the 9th of June and attend my son's wedding.

NEWS WHILE IT IS NEWS: Bob Beebe and Von Farmer bought the mobile home of Walter and Joyce Nichols opposite the Main Hall Office. Then Bugs Metton and Yvonne bought Beebe's. Roy West and Diana Weber bought Jay Piskas motor home and car that he hauled behind it. I'm thinking they will be planning a nice trip in that motor home.

The Bakers are still wanting to sell their place in Amigo section since they are moving to San Antonio right away, I think to possibly an assisted living area???

Ilene and Norm Jensen left this morning on their way back to Wi. via their sons in Northeren Tx. Have chatted with Leon and Robyn Eckers and they are anxious to get back down this fall as their visit last winter was cut short. Lenora Gilly still recuperation from her fall when she broke one arm and lacerated the other. Her son came and drove her back home. Hattie McDaniels has been quite sick in Il. and staying with her daughter, as Gene had his surgery on his ear and the results seem to be good. Bonnie Christian had taken several days off for total bed rest because her legs and feet were so swollen.

Carol and Jim Siltman are hanging wallpaper in their georgeous home in Il. They are the type that can't quit and relax and enjoy retirement, gotta keep on finding big task to keep them busy.

The Faasens have taken Chicketa, (Barb Horne's puppy) and are giving the pup a Motor Home vacation, as Barb is awaiting word from FEMA to go back to work>>Well nuf said, enjoy your summer, stay healthy and return as soon as possible YOUR MISSED Midge

We do want to Keep Betty Burrows in our prayers. If anyone knows of her condition, please let us know. Betty does not have e-mail but I will try to send her home address when I get back to see the Tip Picture book. I'm sure she would like to hear of our support.

Have a good week. Pam

Monday, May 17,2010

Sara opened the meeting with the pledge to the flag and the singing of the Star Spangled Banner.

HOSPITAL REPORT:

Prayers are asked for Jim Collier, Brenda Muller, Morris Harmon and Vera's sister-in law, Helen.

Clarence said a lovely prayer asking for healing for these and others in pain, and safe journeys for those of our Tip family traveling. He asked for God's grace for all of us. Please add Betty Burrows to your prayers she has breast cancer.

There will be a demonstration by a professional of the proper means to clean stains from carpets after the meeting. There will be donuts after the demo.

Vera announced that no longer will she arrange for Thirsty Thursday Out. Everyone is invited to join Larry Thompson and Midge Sykes this Thursday at four o'clock near the outdoor pool for finger foods and drinks.

Mary Kitkowski asked everyone to be sure to sign up if they are attending this Sunday's supper, as she needs a good count before purchasing the meats. 4:00 in the Main Hall. Bring table service and a dish to pass. Pot roast is on this week's menu.

Joe told some jokes.

We sang "God Bless America".

Ongoing Activities:

Karaoke Practice with Yvonne Tues 1-4 ABFH Bottom line Dance Wed. 7-10 MH \$4 Karaoke with Jack and Brenda Fri. 630-10 ABFH \$1 Thirsty Thursday near outdoor pool 4:00 Samba every night but W
