OK.....Another week gone by and I have only heard from the Fords:

Hi Pam, you wanted to hear some interesting things that are going on in our summer, and I have a few. The 1st BIG exciting thing is my Grandson, Corey RUNYAN, who I'm sure you'll heard me talk about him, I use one of his rackets, came in 4th place in the state of Pa. for tennis. He graduated from high school this June. In the first round at states he defeated last years defending champion. We were real proud of him. And I, got in the senior Olympics for tennis. That was the 1st I played since I left Texas. Needless to say, I didn't do too well. Too much rain here and too much work to do around the house, too many parties. I'm ready to go back to TOP. We our going on a mission trip with our church June 19th for a week in West Virginia, then will do a little traveling before we come home. We've had a visit from our friends we meet last year at the Tip, Sharon and Doyle Weatherman. It just is very busy, I may sound like I am complaining, but I like the relaxation and playing that we do in Texas. Glad all is well with your family and looking forward to see everyone in the fall. Take care and that you for the MMM.

Lois and Carl Ford

Congrats to their grandson...hopefully he'll continue his tennis and someday, after retirement, he'll be playing in a park like the TIP and enjoying sharing his game with others.

Before I close, don't you love grandchildren's little league baseball games. I've had the opportunity to watch 6-8 year olds play in their first season. I love it when the outfielder's start picking flowers or throw rocks at each other and their fathers are pulling their hair out. Some of the mothers are hoping for strike outs and double plays just to end the game so they can get their families home. But....all is worth the time and impatience when their little player finds that pop fly caught in his glove or he/she gets that hit that happens to go past the infield.

Donna Scheibel, myself, and others appreciate Warren and Jan Martin sharing their worries of North Dakota and the flooding. We hope all is well in that area of the country. The crops are planted in central Illinois. Now we're having extremely warm humid weather...not TX hot, but still problematic for most residents, or still the thunderstorms.

Since I've "weed & feed" (should that have been weeded & fed??) my yard, I'm going to have to resort to start complaining about mowing my grass if I have no other news. So please drop me a line, so I'll have something interesting to pass on. Have a good week!!!! Pam
