Can you believe it's August....The summer is flying by and I should think about doing some work around the place. It'll soon be Tip Time and I'll be in a crunch. First I want to give you an update on the Simpsons....Cliff called and he sounded great!!! He did say that Delores did have her knee replacement and was on the mend. Cliff has therapy for his recent heart surgery 2 days a week and Delores has knee therapy on 2 other days. Needless to say their weeks are planned for some time. We are soooo glad to know they are both doing well.

My mother, Rose Ann Hancock, recently talked to Joan Craig. She, Joan, had been in the hospital recovering from a slight stroke. They are in Florida with their son for the summer. Joan is having some swallowing problems but is on the mend. We wish her continued recovery and looking forward to seeing her and Oral at the Tip.

Sandy Miller thanks everyone for their prayers concerning her son and granddaughter who were in a horrendous car crash. She wrote:

Miracles do happen. After three weeks exactly our little girl is home. What a blessing. She is soooo happy to be with her cats and her family at home in Waupun. She is doing so well. Her spirits are high and she is working so hard to get back to normal. I am attaching photos for you to see how much better she looks ----enjoying the popsicles---Judy!!!! The last photo is in the hospital around the two week mark. All the prayers and messages have worked. She is on her way from her near death experience. Hopefully no one has to go through this experience ever! Pass it on if you like.

Sandy

We are so glad to hear good news....

I've been glued to the TV watching the Olympics in London....We all should be very proud of our athletes. They have devoted their lives to compete for our country.

I need to hear from you so I'll have some news to pass on to others. Keep cool and please send the rain to Central Illinois. Pam

MONDAY MORNING MEETING Aug 6, 2012

GOOD MORNING:

Pledge of Allegiance,

Hospital Report & Prayer: Connie says Andy Mugnolo, in Lansing Mich. is not doing well, Connie has been n the hospital for tests and is now out after being poked and prodded for a couple days. Bob Leach is in the hospital her in the Valley. A prayer was said for healing for all those suffering at this time.

Linda Merten said that the recommend a friend program is back on any one that brings a friend a or talks some into coming to our park gets rewarded with cash.

Jim said the pool side of the roof is well underway and by Friday the indoor pool should be back open. Please be careful around their work area.

Lavon read an article about bringing solar lights from your drive into the house place them in a bottle to hold them upright in case of electric power failure they work better then flash lights and can be recharged during the day.

Dave and Joy Ochs provided rolls and coffee to help celebrate their 60th wedding anniversary.
