**Here I am complaining again. It is still raining in Central Illinois. Of course everything is green and growing. Even though the farmers were late planting, the crops look great. I have a field of corn behind the house that I swear grows about 4 to 6" every night. Of course that grass seems to grow about the same rate. Rainy, gloomy days only make me yearn for the Tip.**

**Glad to hear that the Walters have made it back safely. Thanks Lavon for the MMMeetings. Since I haven't heard from anyone, I will wish everyone a Happy (Safe) 4th of July. Pam**
