**Hello, Inline image 1ey. Greetings from Canada. Sitting at Lake Louise, Alberta listening to Bag Pipers playing outside our windows. This is a beautiful country. I only hope my pictures come through to show just how emerald the lake. I have been so impressed by the friendliness of the people an by how pristine the country is. Canmare has been my favorite town, but everywhere has been great.**

**We so liked the canola fields with a few blue fields of flax thrown in to make the countryside between Winnipeg and Calgary a patchwork of color. The Calgary Stampede was spectacular. Hats off to the volunteers who cleaned up after the major flood. One could not tell where any water had been. The arena was in perfect shape. The chuckwagon races were my favorite, of course the rodeo was good, too.**

**Inline image 2**

**We've had a great trip, but we're not the only ones on the road. The Dickeys have been on the move:**

We were in Iowa for a long 4th of July weekend, which included the wedding of Terry's niece. We are leaving for Lake Tahoe for a week for another wedding and will stay with the bride's parents in their new Tahoe "cabin".

Ben and Nettie Toews were scheduled to visit us in NE, but poor Nettie is in the hospital in Steinbach suffering from Diverticulitis. She will have surgery as soon as the infection is cleared up and she is stable. Prayer appreciated.

Enjoy the Stampede! Sherry Dickey

**I received this note from Jim Raabe via Mary Olson.**

Dear Mary, I just learned that Liz Olson passed away last week. Information from Norma Carlson, Orv is in a nursing home needs help. Liz played for many years in the singing strings and orchestra. Maybe you can spread the word around to the string players.. Barbra is slowly improving at home.

**Rumors had Cliff Simpson having some health issues, so I e-mailed DeLores and received this:**

Cliff is okay, he has had no other incidence since we were in Texas other than he went through a period of being really tired. Would have loved to have seen you, if even for a cup of coffee but alas we too were not home.

We left July 1 and have been in South Dakota seeing the Badlands, Mount Rushmore and other touristy things. Today we will head for Yellowstone. I originally planned to go on to Baniff but Cliff wants to stop and see Warren and we are suppose to be in Osseo, Wisc the last weekend of the month. We already cancelledreservation for a week of camping with friends in Lansboro,MN the week before Osseo. We will see them in Osseo. A month of travel and we can't seem to get it all in. Oh well, it is just great to finally be on the road again. Afraid I have wanderlust.

Thank you for your note and concern. Stop by on your way home and I'll put the coffee on.

**So glad to hear they're on the move and Cliff is doing well. I want to make sure he'll be on the tennis courts this fall.**

**Bill Mauck tries to keep my informed on the happens at the Tip. He wrote:**

Do you know Rhea Gibson in the park? She lives over by Effie. Last Monday she had 4 bipass surgery. She is not doing that well at the moment. She need to be in all of our prayers.

I talked to Ted a couple of days ago. He is in Utah and leaving by train on the 17th to go back to Chicago. After there a couple of days they are heading back to TOT.

Larry Booth went to New Mexico to see another doctor. Hope he gets some relief from all of his pain. Thanks for all you do to keep all of informed

Bill

**And then Bill sent this infor:**

Pam, wanted to let you know that Reva Gibson is a whole lat better. They removed the breathing tube yesterday and she has been up in a chair and walked a couple of steps. If she continues to improve she may come home sometime this coming week.

Larry Booth is back in the park. Haven't had a chance to talk to him, so not just sure what his plan are, but thing they plan on going back.

**thanks Bill for all the updates.**

**I do know that Marvin and Zee Chapman are on their River Cruise abroad. I've seen a few pictures sent over Facebook, but haven't heard from them yet.**

**Please let us know where your travels are leading you this summer. I'm off to Yellowstone and then making my way back to Illinois. So far this trip ranks right along the top with several others. Marking things off my "Bucket List." Have a good safe week. Pam**

MONDAY MORNIONG MEETING: July 15, 2013

Good Morning:
