**Hi All, I had a wonderful weekend with my family in Santa Claus, Indiana at Holiday World Fun Park. The weather was perfect and all had a great time.**

**Of course any time that you can spend with your Grandkids is a great adventure.**

**Of course 2 days of continuous rides, slides, and park food is about all an "ol grandma" can handle. Nothing puts advanced age in perspective as trying to keep up with a couple of kids. My only salvation was when they spent hours in the wave pool. Thank goodness they are both excellent swimmers.**

**I had a note from Clarence Weber this week. I'm so glad, Clarence, you keep us informed of your happenings. We do miss you at the Tip.**

Thank you so much for keeping me informed on our Brothers and Sisters at the TOT. Well I made it through my surgery again, pace maker that they put in when we were in Texas at the Tip had to be replaced. It seems a lot harder than when they put it in the first time there. Suppose to be 2 to 3 days. Went in Monday and they left me out on Friday, and still could not get my cumadin back where it is suppose to be again, doubled it with shots to. It was a bigger pace maker than the first one, the 2 manufactures that made them went together and made this one. It,s a lot more pain did more cutting

**We do hope you get things back under control. It's so hard when you have to go off your blood thinner to get it back to normal. Best of luck.**

**I read of facebook a post from John Devaney that I would like to pass on:**

I am blessed with a good family & friends. I have a sciatica nerve problem. A lot of pain when trying to walk. I went to urgent care in Chesterton. Doctor was with me no more than 5 min. Only talked no exam, Gave me a pain pill that did nothing & let me go home. Yesterday I went to Franciscan E.R. in Chesterton. Trying to walk in the front door staff saw I was having trouble, Put me in a wheelchair & took me into E.R. Doctor was with me for over 20 min. order test & X-rays, & checked me all over. Doctor gave me 2 shots to help with the pain & stronger pain pills. After my tests & X-ray test were back I was released to go home. The staff put me in a wheelchair & took me to the front door. No help @ the other place getting into & out of.

Mark & Russ (neighbors) called & said they will cut my grass since I can't walk to far yet. I know my other neighbors would do the same, they don't know I am having a problem. Can't forget my Wife Elaine for taking good care of me I am so Blessed.

**We know how painful that can be. Good luck to you, too, John. Hoping you don't mind if I forward your post to all our Tip friends.**

**We need to congratulate Great Grandparents Joe and Cyndi Ferguson on their first great grandson, Hudson Clayton Baylor Smith. Even though he came a little early, Cyndi notified us that he is doing well. Just a few more pounds and he'll be able to go home. Good news!!!**

**To all the Tip tennis players. Next week , if all goes as planned, I'll be at the Southern Western Tennis Open. All the men and women professional players should be there. This is one of the last hard court tourneys before the US Open in NY. Look for me on TV and I'll give a wave.**

**Have a good week and let me know how you're doing!! Pam**
