**To:** pamabrown1948@gmail.com  
**BCC:** obrienjp@drivehq.com

**Back home from a good trip to Northern Michigan. We stayed at the Grand Hotel on Mackinaw Island, which was a treat. It was quite chilly and even the Soo Locks were frozen over. We thoroughly enjoyed the Tulip Festival in Holland and saw some beautiful flowers. Thank you Michiganites (I can't call you Wolverines, since they have changed your state animal,) for sharing your state.**

**A quick note from John O'Brien concerning the new ceiling:**

Pam, a vinyl ceiling is being installed in the Main Entrance hallway and indoor pool area. The hallway in front of the Arts & Crafts room will also get a ceiling. What has been completed really look nice.

**There is reference in todays minutes about the work being done.**

**I had a short note from Charlie Craig**

Sorry too her it is cold at Island. You just travel North too far . Too be 80 here today. Yard mowing and garden planting is keep me busy.

Enjoy your stay on the island.

**I also heard from Joyce Sauter:**

I finally arrived in WI. Flew to MN on 4/30 and ended up in emergency room 5/1 I passed out on our son and daughter-in-law (she is an RN) guess if I need to have an issue that was the best place to be. My grandson and his RN wife were also there! LOL Turned to be a lot of to do about very little. After 4 hrs in ER and a visit to the cardiologist on Monday, the decision was that I was very healthy probably had a combination of stress and dehydration from getting ready to move North and then the flight etc. etc. At any rate son still has David and will meet them half way to pick him up on Friday. I came home on Tues. to get the house cleaned up and have a few days of rest.

Got Dave fixed up with a GPS tracker that I can find him on my tablet! LOL No more driving all over trying to see where he is.

Hope everyone has a great summer.

**If you hadn't heard, there was more break-ins at the park last week. I do know of a couple of houses that were entered and a few where there was an attempt. Mine was reported to be on the list, but so far all seems to be in tacked. John O'Brien wrote:**

Pam, we drained the water, threw the breakers, and said "good-bye for the Summer" to the guard at TOT yesterday morning at 8:15. We are in Fort Worth with our daughter and granddaughters. Will go to the graduation of one of the granddaughters tomorrow at Texas A&M on Saturday. Head for Decatur on Monday.

Police presence has increased at the park. Saw several police patrols drive through on Tuesday and Wednesday.

**Bill Mauck sent some good news:**

Dirty Al's Bayou Grill and Seafood restaurant opened this week in McAllen. We ate there today and had wonderful shrimp without driving all the way to SPI. A great addition to our choices of places to eat out.

The ceiling in the inside pool area is really looking good. A great improvement to the park

**I hope the attachments come through of Jo and Oral Craig. Their son sent the nicest note:**

Here are some pics of Mom and her "boy toy" that were taken this AM as we were out for Mother's Day Breakfast.

It was actually a "comedy of errors" and we tried 4 restaurants, including our very own Wheelhouse, prior to finally finding a place to eat, but that's another story.

The basket of fresh flowers is from Dan & Anita.

It is a nice day here today, but a bit hazy as summer is trying to settle-in over us with lots of that famous Florida humidity.

Hope this Mothers' Day finds all of you in the best of health and good spirit.

love to all,

**I will continue and hope the pictures show up at the bottom. Clark Will wrote:**

We were getting to need a little moisture lately, but not quite this much.

At least we escaped the 70 mph winds from further west and also the golf ball-sized hail that some places had! We at least escaped the tornadoes here that were around further west. Don't know if it was tornadoes or strong winds, but they took out empty grain bins, upset pivots, and broke down a lot of old trees.

It nearly decimated the small town of Cordova and left it kenwith no way in or out of town. The fire chief estimated that 90% of everything in Cordova was either damaged or gone!

**And lastly, Jackie Hood's nice note:**

Hi Pam, wanted to let you know we got home last Monday. Had a good trip ,all good weather. The weather here in MI is pretty good where I'm at, so can't complain. Thanks so much for sending the news, it's so good to hear about our friends. Take care. Love, Jackie

**Wishing all a good week and hoping the sun is shining brightly on your day!!!! Pam**

**MONDAY MORNING MEETING May 12, 2014**

**GOOD MORNING:**

**Pledge of Allegiance**

**Hospital Report by Jeanie Zpif:** Hugh Insell is taking therapy 4 times a week to recover from his stroke. An ambulance came Friday eve for Helen Hodgkins, We have no further information on her. Sue had a good day yesterday, but the chemo is tiring her on most days.

**Prayer by Paul Barcenias**

**OTHER INFORMATION:**

**Al Septrian, park manager asked that we watch and kind of keep track of the each other through the summer.**

**We have 120 sites inhabited and 158 residents in the park.**

**Frankie Meyers is working in the office this summer. Her husband works around the park outside.**

A new resident, Joann Wright - renting from Ford's - spoke for a few minutes about local home health care. And assistance if anyone needs it. Her company is bonded, insured and has been in business for over 15 years. If anyone needs assistance to take them to the DR.'s, groceries, etc. she has her # in the office.

Video room opens on Mondays only:

Thirsty Thursday will be at the Red Lobster on N.10<sup>th</sup> St. at 4PM

Peter Piper pizza will be this Tues. 11:30 tomorrow. 10<sup>th</sup> and Pecan.

Signup sheets for both are on the bulletin board.

The ceiling in the outer part of the main building is in progress, be careful around installers and it is looking fine.
