Sorry folks, for not sending the MMMeetings any sooner. As you know I was in Florida 2 weeks ago. I came home Wednesday evening, unpacked, repacked, and was on the bus to New York bright and early Thursday morning. That was a week ago. 4 generations of Hancock's had a great time. I took my granddaughter, daughter, and my mother on a Faith in Action bus tour of New York. We had a grand time. I'll brag on my 9 year old granddaughter. She was so good for the whole trip. (Of course I sat with her and had her in my room, away from her mother, the whole time.) It's so nice to have all the other adults brag on her behavior. The other senior citizens enjoyed having her along, they even watched her movie "Frozen" and seemed to enjoy it. Maybe it was because we had ridden the bus for 10 hours that day and they would have enjoyed watching anything.

Anyway, I'm back in central IL for awhile and even enjoyed mowing the yard. I will say my stay in Florida was quite nice. The sunsets over the gulf are quite breath taking and something I miss.

**I have heard from Peggy Thomas of her daughter who was also diagnosed with leukemia early Spring:**

Hi Pam Just wanted to tell you the good news. Our daughter Jill is doing wonderful. After the month in the hospital and the chemo. she had another bone marrow biopsy. It showed very little cancer. She decided not to (at this time) to do a bone marrow transplant. After another month she went and had some blood check ups and even to the Dr.'s amazement he said her blood was 100 percent. So they do not say she is cured but that she is in remission. And no one knows how that will be in the future. She lives at Las Cruces NM and has put her house up for sale and will be moving to Albuquerque. Summer has hit us with a dry heat wave. breaking records all over NM. Take care all and enjoy.

**what wonderful news...prayers do work and we will continue to pray for her and other. Speaking of others...I hear that Sue is doing much better and has an address in Houston:**

Sue Septrion's address in Houston
