Good Morning. The mid west has had warm beautiful weather, but along with that comes the bad storms. Wisconsin was hit by several tornadoes. I will start by a note taken from John Daleny's Facebook page:

Just talked to Ron Boldt from Platteville, Wisconsin. Tornado caused much damage there. He was up all night with the vol. fire dept. clearing up. His home was OK. He wanted all our friends at the TIP know. What a great guy.

Glad to hear that the Boldts were not hit. We all appreciate hearing when our Tip Family survives Mother Nature's wrath. So please drop me a line if your area has been in a storm's path.

Bonnie Lynch dropped my a quick note. Bonnie had to have her arm rebroken ?? or at least reset and going thru therapy. Maybe now we galley slaves won't have to do all the heavy lifting. Just kidding, Bonnie.

Hi everyone hope your summer is going well. Had Steve and Gracanne powell here last week and had a great time. Our grandson Dillon is here now and Tuesday Don and Carol Wilder are coming and we are going to see Maggie May Thursday. Looking forward to there visit. Dick and I are doing well. Arm is doing better. Take care Bonnie

Sorry to lose another Tip Resident. Gladys Armstrong passed this week. You'll read more in the MMMeeting. Sorry, but that's all I have. Wishing you a great week. Pam (Again a reminder that my e-mail address has or will soon change.)

OTHER INFORMATION:

Arlene Strain says all first responders are out of the park for the next few weeks and every one should put the office number in their cell phones and land lines as it is answered 24-7. Also those who live alone should get life alert medical call services, as there was recently an incident that the person lay in need for over 5hrs in the AI Barns building where the person had fallen and could not get up.

A presentation by Gregory, who is involved in Peggy Baker's hospice care explained more what hospice is and had some pamphlets to pass out. He also provided donuts for the meeting. He explained that the support is not only for end of life, but also for family support. Medicare pays 100% of the cost of hospice after a physician verifies that a person has 6 months or less to live. If you live longer than 6 months the care still continues and Medicare still pays the full amount. Peggy explained how wonderful Hospice has been

Other information: Indoor pool project should last another week or so. Not sure if other major projects planned for this summer.

Video room opens on Mondays only after the meeting for a short time.

Thirsty Thursday will be at: Tony Roma's on south 10th, 4:30

Joe Strain, sent some funny jokes which Dave read and left us all in a wonderful mood for the day.

Meeting adjourned.
