Good Morning Tip of Texas Family

Marty has results to all of his tests. He has severe arthritis and the bones are restricting his nerves causing his walking and balance.

Primary concern now is his aneurysm in abdomen area. It has to be removed surgically. Two procedures are being talked as I write this with the vascular doctor and heart doctor trying to determine the best one taking in considerate of all of his other issues. We have faith in the doctors and feel we have the best.

Our faith in God will get us thru this most difficult time. Please keep us in your prayers. Will keep all informed as we go from day to day.

We have arrived safely back in Paris, after a number of sidetracks visiting family and friends all the way. Weather has been perfect, but are heading out of town Tuesday for grandson's receiving his doctorate at Virginia Tech, then back to Peoria for another grandson's BA. Then on the 15th to Nashville TN for checkup on my pacemaker at Vanderbilt, and I think after that I can start putting out flowers. See you next fall, if not before.

The Simpsons:

Well we made it home safe Friday night safe and sound. We had a great tail wind pushing us home. Stopped for a quick visit with Cliff's cousin in Waxahatchie and as soon as we pulled back onto the highway we had a torrential downpour so bad we had to pull under a overpass so I could figure out the windshield wipers. Only lasted half an hour and then clear sailing and beautiful weather all the way home. Love coming home to MN just as much as I love going to Texas, but now the fun of unpacking and yard work.. Weather is nice enough for me to take all my plants out into the shade till I can get housework done and invest in a few more plants before gardening.

Our son is coming to take us out for dinner tomorrow evening to celebrate Cliff's 80th birthday then a family funeral Thursday with a few doctor appointments in between.

Good to be home and getting back in the grove. Looks like a warm summer.

Hi to all our TOT friends until the fall,

DeLores & Cliff Simpson

Faye and Wally Pensil called and left a message that they had arrived home after 2 1/2 days on the road. Wally was doing fine.

We're so glad that all of these Tipsters have made their way north and getting back into their usual routines.

Have a good week. Pam
