Tip News, but no MMMeetings. Scary news first from Dave Ochs:

Well, it is not Monday, but as there is no MMM I thought I should send out some information.

Our Maintenance Man Thom Vilaerreal has contracted the Covid-19 virus, he has been off work for 2 days with chills and fever, and is seeing a Dr. today. Also Mr. Sanchez, an elderly man who purchased Fran Buckingham's home in the Amigo Section also contracted the virus. The Ambulance came for him on Monday and since there was no room for him at any of the local hospitals they brought oxygen and other supplies to his home. Unfortunately he passed away last night Tuesday in his home.

I just wanted everyone to know that the virus is now hitting closer to home and we have it in the park. Tom could have exposed a lot of us as he was around the park a lot. I hope everyone takes extra precautions and wears a mask more and respects the 6 ft distance that is recommended.

stay safe Dave Ochs

Pam's Notes

Pete has talked to Tommy and to Al. Tommy was tested, but we haven't heard if he test positive or not. I especially am waiting to see if the Virus has hit the park before I have to make a decision on where to go after my visit to MD Anderson on July 24 & 25. The surgeon let us come North for a few weeks while "the Lump" settled down. Now I'm scheduled to go back for MRI and to see surgeon again. Then the next step decision will be made. I'm feeling pretty good and trying to walk and exercise. Still have trouble eating solid foods due to the salt taste in my mouth. I am drinking lots of Protein shakes, Gator Ade, and water. I try to throw in some vitamins. Have lost some weight, but far from blowing away in the South Texas wind.

A pleasant note, Ken Burrows called and we had a nice chat. He is getting along fine and staying safe. Thanks for the call, Ken.

I again want to express my deep appreciation for all those who are caring and praying for my recovery. You all are a God sent. I know with yours and mine, the good Lord will see me through.

We will try to keep you informed of the Park at this trying time. Please wear your mask and stay safe. Pam
